

**Scotland has only 8.3% of the UK's population  
8.3%! Remember this important figure... 8.3%**

**But Yes we DO have...**

**32% of the land area.  
61% of the sea area.  
90% of the fresh water.  
65% of the natural gas production.  
96.5% of the crude oil production.  
47% of the open cast coal production  
81% of the untapped coal reserves  
62% of the timber production  
46% of the total forest area  
92% of the hydro electric production  
40% of the wind wave and solar energy production  
60% of the fish landings  
30% of the beef herd  
20% of the sheep herd  
9% of the dairy herd  
10% of the pig herd  
15% of the cereal holdings  
20% of the potato holdings  
100% of the Scotch Whisky industry.**

**We also have a...**

**17 billion pound construction industry  
13 billion food and drink industry  
10 billion business services industry  
9.3 billion chemical services industry  
A 9.3 billion tourism industry  
7 billion financial services industry  
5 billion aeroservice industry  
4.5 billion pound whisky exports industry  
3.1 billion pound life sciences industry  
350 million pounds worth of textile exports**

**We have 25% of Europe's wave & wind energy potential.**

**And finally we are blessed to have 1.5 trillion pound  
worth of oil and gas reserves.**

**All of this, yet only 8.3% of The UK's population.**

**We currently only have 6% fiscal control of these  
rather massive revenues !**
